

## Bilboquet

**It is always rewarding to make new things out of the old. Bilboquet is a classic cup and ball connected by a piece of string. This fun and creative activity can be made by RESUING a plastic water bottle, old newspaper, a string, and masking tape. This fun activity can make a fun and exciting learning experience.**

### **Materials:**

Old Newspaper

Recycled Plastic Bottle

Masking Tape

String/Yarn

### **Instructions:**

1. Cut a large plastic bottle in half and keep the top part so you can hold it by the neck.
2. Decorate the bottle with paint, until dry.
3. Make a small ball with a page of newspaper and cover it fully with masking tape.
4. Once the ball is covered with tape, decorate the ball with paints or markers.
5. Once both the bottle and ball paint is dry, tie one of the extremities of the string around the bottle neck and the other around the ball
6. Now your own Bilboquet is complete. Play by holding the neck of the bottle with the open part up. Try to swing the ball into the cup without using both hands.
