

## Scrap Cloth Pencil Holder

**Prep Time:** 20 minutes

**Skill Level:** Hard

**Total Time:** 35 + minutes

### Materials:

- Empty aluminum can
- White acrylic paint
- Paintbrush
- Fabric scraps
- Scissors
- White craft glue
- Water

**Advice:** If you like, add a lip of fabric or felt around the top of the can.

### Instructions:

1. Mix together equal parts of white craft glue and water. Mixture should be easy to spread.
2. Paint the can with one coat of white craft paint. Let it dry.
3. Start anywhere on the can, paint a small amount of glue mixture on to the surface. Apply a fabric scrap and paint more of the mixture over the top of the fabric and smooth it out. Repeat this process, overlapping the fabric scraps so that none of the can's surface shows through.
4. Use scissors to trim any pieces of fabric that are sticking out above the can.
5. Let the glue dry completely before using.
